## ASG Premium Auto Feed System

- Patented "Forward Bit Stroke" allows access into restricted spaces
- Telescoping jaw device extends the bit completely out of the jaws so that they never contact the work surface and allows screw installation into holes or tight spots
- Due to the unique design, screw jamming in the jaws is a thing of the past
- Available with ASG SD2500 series DC torque and angle control screwdrivers and Fiam auto shut off pneumatic screwdrivers

## Fiam "Semi-Automatic" Nut Feeder System

- Feeds and presents hex nuts, self-locking hex nuts or hex nuts with flanged washers
- Handles hex nuts from 5.5mm – 13mm ( $\frac{7}{32}$  –  $\frac{1}{2}$  in) hex size
- Works with a variety of screwdrivers
- Special pick up socket required
